	NRO REVIEW COMPLETED		17 December 1702	
	MEMORANDUM FOR:	Chief, Operations Division, OSA Chief, Security Branch, OSA	A	
 		Chief, Materiel Division, OSA Chief, Administrative Division,	OSA	
		Chief, Personnel Branch, OSA	Cibes	
		Acting Comptroller, OSA Chief, Communications Staff, C	OSA.	
	SUBJECT :	Re-evaluation of Project IDEAI	IST Operations Concept	
		for FY 1963 and FY 1964		
	I. As an outgre	with of the Special Group meeting rmal remarks at last Friday's St	of 13 December 1962,	
	asking that Operations	take the lead in a reassessment of	of our current Project	
	the U-2 inventory as it	oncept, with particular emphasis now stands, i.e., a total of seve	n available aircraft.	
	2. For the pur	oose of this evaluation, the follow	ving planning assump-	
	tions should be used. 'relative priority.	They are not listed necessarily in	the order of their	25X1A

c. A standby aircraft should be assumed for the detachment at Edwards Air Force Base. While initially programmed for possible use in Cuba, this aircraft may be employed elsewhere as the tactical situation dictates.	25X1
d. For the present we must assume one U-2 aircraft (J-75) will be a continuing requirement to support the OXCART program from Edwards, i.e., REDDOT tests, racetrack, etc.	
e. Planning should encompass the prospect of aircraft out of commission for periodic inspections, IRAN's, etc. It should also be assumed that during the next twelve months one aircraft will be lost in operations.	
f. Over and above the strength at Edwards necessary to support c. and d. above, a requirement will exist to provide a minimum operational capability to conduct stagings from Edwards as may be required, Man power planning at Edwards should assume a capability greater than a single staging team, but hopefully less than two full staging enterprises. A minimum capability to provide for c. and d. above should be assumed at all times regardless of other staging commitments.	25X1 <i>A</i>
	25X1A
h. In addition to all the requirements set forth above, it should be assumed that one J-57 U-2 will be required to support OXCART tests This aircraft will be based at Burbank and will be	25X1
operated in the ZI rather than overseas. LAC will provide maintenance and pilot personnel for this plane which will have to come from SAC sources on an indefinite loss basis.
